

Gentlemen: We each have satellite radio in both of our cars and we love it. Satellite Radio provides quality and variety that we are not able to get elsewhere. We drive a lot and in the past we have not been able to pick up radio stations. Satellite provides stations all day and night long. We respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve. We do not paying a monthly fee while we are able to enjoy XM all over the country.

Sincerely,

Maggie and Robin Adrian
